TEACHER TOOL

ClassPulse

● IN USE

A live progress board for the classroom screen.

PREVIEW WITH SAMPLE DATA · NAMES ARE MADE UP

What it does

ClassPulse shows the whole class's progress through a lesson on the classroom screen. Learners move along the lesson's success criteria from Not ready to Nearly ready to Ready, and those who reach every criterion move into the Stretch and Challenge Zone. Teachers can see at a glance who needs help.

How it works

STEP 1

Share the success criteria

Open the board for your lesson. Classes come straight from Google Classroom.

STEP 2

Update progress during the lesson

Move learners yourself, or let them update their own place from a learner link.

STEP 3

See who needs help

Percentages and colours show where the class is, at a glance.

STEP 4

Save a report

Save a progress report to Google Drive in one click.

Key features

Made for the classroom screen

Large, clear board for the smartboard or projector.

Success criteria columns

Not ready, Nearly ready and Ready for each criterion.

Stretch and Challenge Zone

A place for learners who reach every criterion early.

Learner self-update link

Learners can move themselves, marked so you can see who did.

Reports to Google Drive

Save a record of each lesson's progress.

Overview for leaders

Heads of Department and Heads of Year see an overview across classes.

Good to know

- ✓ Classes come from Google Classroom.
- ✓ Runs on Google Workspace.
- ✓ Hide names on the screen when you need to.
- ✓ Made by a teacher, and already in use in classrooms.
