TEACHER TOOL

Timetable Generator

● IN TESTING

Build the school timetable and plan daily cover.

PREVIEW WITH SAMPLE DATA · NAMES ARE MADE UP

What it does

Timetable Generator builds the whole school timetable automatically, shows any clashes to fix, and helps with the daily job of covering absent teachers. It suggests who can cover, emails the cover slips, prints timetables as PDFs, and imports from and exports to iSAMS and other school information systems.

How it works

STEP 1

Auto-build the week

One click places every lesson for every class, teacher and room.

STEP 2

Review any clashes

Double-booked teachers or rooms are flagged so you can fix them quickly.

STEP 3

Plan today's cover

When a teacher is away, the app suggests who is free to cover each lesson.

STEP 4

Send cover slips

Cover slips are emailed to the covering teachers in one click.

Key features

One-click auto-build

Builds the whole timetable, then shows anything that needs a decision.

Clash review

Teachers or rooms booked twice are listed with a quick way to see them.

Cover suggestions

Suggests free teachers for each lesson that needs covering.

Emailed cover slips

Emails each covering teacher their cover slip.

PDF timetables

Print or share timetables for any class, teacher or room.

Works with your school system

Imports from and exports to iSAMS and other school information systems. Just tell us the format your system exports.

Good to know

- ✓ Views by teacher, class, room or learner.
- ✓ Runs on Google Workspace (Google Sheets).
- ✓ Roles for the Timetabler and the Cover Manager.
- ✓ Made by a teacher, for teachers.

Questions or a prototype for your school
